

There are two Mexican journals that can be of interest to the agrimet community:

1. ***Agrociencia Journal***, one of the main Latin-American agricultural journals. It has regularly papers related to agrometeorology.

It can be accessed in the following link and is bilingual (Spanish-English)
<http://www.colpos.mx/agrocien/Bimestral/Contenido.html>

2. ***Atmosfera***, a journal about meteorology-climatology with papers in English.

The link is:
