

A list of relevant publications for Tunisia, from the National Institute of Meteorology (NIM), can be found, with an additional English explanation for some of them (except the Climate Atlas), on

<http://www.meteo.tn>

as follows:

Almanach (1999/2000/2001), in French and English

Climate Atlas, only in Arabic

Seismic-tectonic Map, in French

Agro-climatic data of the Cap Bon Area, in French and English

Frequency analysis of rain episodes, in French and English

Rain intensity, in French
